happy to
advise you
in person

Key points at a glance

Obligatory basic insurance only covers a stay in the general ward of an accredited Swiss hospital (emergencies excepted). For hospital treatment outside the canton of residence, these insurance policies refund no more than the rate applicable at the patient's place of residence. With our supplementary hospital insurance, you benefit from attractive services in addition to basic insurance. This leaves you free to choose both the hospital and the level of comfort required during your stay there. It saves you potential extra costs and guarantees excellent service.

For further details on supplementary hospital insurance, see: [visana.ch/spital](https://www.visana.ch/spital)
